Cologne/Bonn, Germany
partly remote possible

Leading projects, performing life cycle assessments, and advising our customers in the chemical value chain, with a focus on lubricants, greases and oils.

APPLY NOW

Please send at least your CV, a cover letter stating your motivation for the position, transcripts of university degrees, and the respective grade summary to

application@carbon-minds.com.

You are welcome to attach other documents that you consider important.

RESPONSIBILITIES

- Development, implementation, management, and quality control of projects (content, personnel, time, money, tasks) with our clients and our employees
- Active collaboration and execution of projects with a focus on life cycle assessments, carbon footprint calculations, and environmental impact mitigation opportunities
- Collecting, analyzing, and evaluating technical data for project execution, such as energy consumption, efficiencies, or raw material usage
- Conducting trainings and workshops with the clients and the team
- Preparing reports and presentations as part of the job, as well as conducting meetings and taking minutes
- Promoting communication with project stakeholders and team members

JOB REQUIREMENTS

- Degree related to the subject (BA/MA/PhD). For example, chemistry, chemical engineering or environmental sciences.
- Relevant professional experience in the field of life cycle assessment, CO₂ footprint calculation, and the development of measures to mitigate environmental impacts
- Preferably relevant professional experience in the field of lubricants, greases, and oils
- Knowledge of project management, preferably with certification
- Basic knowledge of Excel or Python for data processing
- Excellent communication skills in English and German
- Assertiveness, determination, initiative, and implementation orientation
- Enthusiasm for sustainability assessments and services

BENEFITS AT CARBON MINDS

- First things first: **Doing good for the environment!**
- Flexible working hours
- Possibility of flexible home/office work in Cologne and the surrounding area
- Easy and fast personal development with a high learning curve and varied tasks
- We strive for a long-term business relationship
- Competitive salary from the start, based on a fixed salary structure that takes experience into account
- Dynamic and friendly team

ABOUT

carbonminds

Welcome to Carbon Minds. We drive innovation and sustainability in chemical products and actively shape change. We do this by making our customers' environmental impacts transparent using the life cycle assessment method, enabling the transformation to greater sustainability.

Imagine being part of an agile, motivated team that not only provides data, services, and consulting but has a clear goal to mitigate climate change and contribute to society. In doing so, we believe in collaboration, responsibility, and the integrity of our actions. Your ideas are not only heard but needed. The opportunity is here – be part of it as we reinvent the world of chemicals.
