

# LCA Expert

Trainer and expert for sustainable chemical value chains

LIFE CYCLE ASSESSMENT SUSTAINABILITY TRAINING

CARBON FOOTPRINTS OF PRODUCTS CHEMICALS

Full-time

Next possible moment

Cologne/Bonn, Germany  
*partly remote possible*

Leading and conducting training, performing life cycle assessments, and advising our customers in the chemical value chain.

## APPLY NOW

Please send at least your CV, a cover letter stating your motivation for the position, transcripts of university degrees, and the respective grade summary to

[application@carbon-minds.com](mailto:application@carbon-minds.com).

You are welcome to attach other documents that you consider important.

## RESPONSIBILITIES

- Conceptualization, design, implementation and continuous development of our courses and workshops in the field of life cycle assessment and CO<sub>2</sub> footprint calculation of products
- Preparation of customer-specific, ISO-compliant method documents for the calculation of life cycle assessments and CO<sub>2</sub> footprints of products
- Organization and support of the certification of customer-specific methods for the calculation of life cycle assessments and CO<sub>2</sub> footprints of products with recognized certification bodies, such as TÜV Rheinland
- Active collaboration and execution of projects with a focus on life cycle assessments, carbon footprint calculations, and environmental impact mitigation opportunities
- Collecting, analyzing, and evaluating technical data for project execution, such as energy consumption, efficiencies, or raw material usage
- Conducting trainings and workshops with the clients and the team
- Preparing reports and presentations as part of the job, as well as conducting meetings and taking minutes
- Promoting communication with project stakeholders and team members

## JOB REQUIREMENTS

- Degree related to the subject (BA/MA/PhD). For example, chemistry, chemical engineering, or environmental sciences.
- Professional experience in the field of life cycle assessment, CO<sub>2</sub> footprint calculation, and the development of measures to mitigate environmental impacts
- Knowledge in the conceptual design and execution of training and workshops
- Excellent communication skills in English and German
- Eloquent expression, ability to explain didactically
- Strong communication and presentation skills, empathy
- Enthusiasm for teaching the methodology for life cycle assessments and carbon footprint calculations

## BENEFITS AT CARBON MINDS

- First things first: **Doing good for the environment!**
- Flexible working hours
- Possibility of flexible home/office work in Cologne and the surrounding area
- Easy and fast personal development with a high learning curve and varied tasks
- We strive for a long-term business relationship
- Competitive salary from the start, based on a fixed salary structure that takes experience into account
- Dynamic and friendly team
-

## ABOUT

  
carbonminds

Welcome to Carbon Minds. We drive innovation and sustainability in chemical products and actively shape change. We do this by making our customers' environmental impacts transparent using the life cycle assessment method, enabling the transformation to greater sustainability.

Imagine being part of an agile, motivated team that not only provides data, services, and consulting but has a clear goal to mitigate climate change and contribute to society. In doing so, we believe in collaboration, responsibility, and the integrity of our actions. Your ideas are not only heard but needed. The opportunity is here – be part of it as we reinvent the world of chemicals.
