

# LCA EXPERT – FOCUS ON PLASTICS

## Project manager and expert for sustainable chemical value chains

Leading projects, performing life cycle assessments, and advising our customers in the chemical value chain.

LIFE CYCLE ASSESSMENT PLASTICS  
SUSTAINABILITY CHEMICALS  
PRODUCT CARBON FOOTPRINTS

Full time

Start  
As soon as possible

Location  
Cologne, Germany  
(home/office working possible)

### RESPONSIBILITIES

- Development, implementation, management and quality control of projects (content, personnel, time, money, tasks) with our clients and employees.
- Active collaboration and implementation of projects with a focus on life cycle assessments, CO<sub>2</sub> footprint calculations and ways to reduce environmental impact.
- Collecting, analyzing and evaluating technical data for the implementation of the project, such as energy consumption, efficiencies or raw material consumption.
- Conducting training sessions and workshops with customers and the team.
- Preparing reports and presentations as part of the job, as well as holding meetings and keeping minutes.
- Promoting communication with project participants and team members.

### JOB REQUIREMENTS

- Completed studies in a relevant subject (BA/MA/PhD). For example, chemistry, chemical engineering or environmental sciences.
- Relevant professional experience in the field of life cycle assessment, CO<sub>2</sub> footprint calculation and the development of measures to reduce environmental impact.
- Preferably relevant professional experience in the field of plastics production.
- Knowledge of project management, preferably with certification.
- Basic knowledge of Excel or Python for data processing.
- Excellent communication skills in English and German.
- Assertiveness, determination, initiative and implementation orientation.
- Enthusiasm for sustainability assessments and service.

### BENEFITS AT CARBON MINDS

- Flexible working hours / potential for partly remote working.
- Simple and fast personal improvement with a high learning-curve and varying tasks.
- We are seeking long-term relationships, so we can grow together.
- Competitive salary for engineers, from the start, based on a fixed salary structure based on your experience.
- Last but not least: **Doing good for the environment!**

Please send (as a minimum) your CV and a cover letter highlighting your motivation for the job to

[application@carbon-minds.com](mailto:application@carbon-minds.com).

Feel free to attach any further documents you think are important.

### ABOUT

Welcome to Carbon Minds. We drive innovation and sustainability in chemical products and actively shape change. We do this by making our customers' environmental impacts transparent using the life cycle assessment method, enabling the transformation to greater sustainability.

Imagine being part of an agile, motivated team that not only provides data, services, and consulting but has a clear goal to mitigate climate change and contribute to society. In doing so, we believe in collaboration, responsibility, and the integrity of our actions. Your ideas are not only heard but needed. The opportunity is here – be part of it as we reinvent the world of chemicals.
